PRICE & SAVINGS

Packet	Regular Value	Package Price	You Save
Male Puppy	\$2,179.82	\$1,856.67	\$323.15
Female Puppy	\$2,205.41	\$1,879.70	\$325.71

FOUR-PAYMENT PLAN

The package is paid in four essentially equal installments. The payment amount is separate from the value of services performed at each visit.

Small
payments...
big peace
of mind!

Payment	When Collected	Male	Female
1 of 4	8 weeks – Enrollment / PUPPY1	\$464.17	\$469.93
2 of 4	12 weeks – PUPPY2	\$464.17	\$469.93
3 of 4	16 weeks – PUPPY3 + Spay/Neuter	\$464.17	\$469.93
4 of 4	6 months – PUPPY4	\$464.16	\$469.91
	8 months	\$0	\$0

HOW THE PAYMENT PLAN WORKS

Payments 1–3 remain fixed. Any unused package balance rolls forward to later visits, including the higher-cost surgery visit. The fourth payment closes the planned four-payment schedule; if weight-based preventive selections change the final packet cost, a small final reconciliation may be necessary.

Flexible
& simple!

PLEASE NOTE

- Package pricing applies to the services/products included in the current Puppy Packet.
- Preventive product selections are based on the puppy's weight and may change as the puppy grows.
- The veterinarian may modify the medical plan when clinically appropriate for the individual puppy.
